Subject: Ellsworth Village

Hi Roland,

In an effort to get more people into Ellsworth Village we'd like to move one of the two remaining affordable units from the back of the project into a partially completed unit up front. We've contacted the next available lottery participant and they're willing to put their house on the market in order to purchase at Ellsworth.

I spoke with Nancy Tavernier a few weeks ago and she indicated ACHC would be fine with the move. The unit I'd like to change is #22 (currently designated affordable) to Unit #30. I'm assuming we'll have to request a revision to the planning board decision (page 8, para 3.2.9) and amend the regulatory agreement (page 2, para 6) and master deed. I'm attaching the permit, regulatory agreement and master deed (with the phase 2 revision) for your info.

Can you tell me if this would be feasible and, if so, how to get started.

Thanks for your help.
